Connecting your Luma USB Active Optical Cable

Connect the USB connector labeled "host" to your source device (computer). Connect the Luma AOC USB female type-A connector labeled "device" to a male-male type-A connector USB cable (not included) and connect the other end of the USB cable to the device (HDD).
A USB drive or other device with a male type-A connector can be connected directly to the Luma USB AOC.

For further assistance, contact support@lumaconnects.com or call 949.453.9988 from 9:00a until 5:30p Pacific Time.
